RIVA 88' FOLGORE

MOTOR YACHT

RIVA 88' FOLGORE

It's a lightning bolt of dazzling style, an irresistible love at first sight that will seduce owners and enthusiasts of the **Riva** legend across the world. The 88' Folgore is Riva's new sportfly: Powerful and innovative, it is a lightning bolt of beauty.

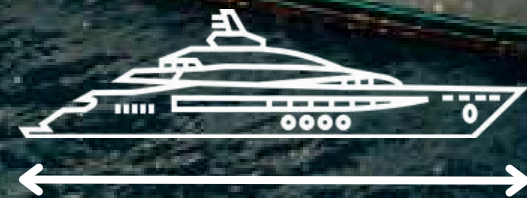

The irresistible charm of its design lies in the balance between past and present, in the concept that combines the use of innovative materials such as carbon with traditional details such as mahogany inlays and steel decorations.

Like all Riva's most recent masterpieces, the 88' Folgore is also the fruit of a partnership between Officina Italiana Design (the office founded by Mauro Micheli and Sergio Beretta), the Product Strategy Committee chaired by engineer Piero Ferrari, and the Ferretti Group Engineering Department.
